North Lincolnshire Adult Social Care and North Lincolnshire Health and Care Partnership want to ensure that we have a skilled and knowledgeable workforce, across health and social care, who can carry out proportionate, single-handed care assessments and techniques with maximum efficiency and minimal risk.

We are offering those who deliver training across North Lincolnshire a programme of information, education, and training with the aim of improving the quality and level of care to individuals, at the right time, in the right place.

This course will not only equip you to assess for single handed packages of care, but to cascade this knowledge to others in your organisation.
